**2012 Kuskokwim Bay Salmon Fishery News Release 3  
Districts 4 and 5 to Open to Commercial Salmon Fishing**

This is an announcement from the Alaska Department of Fish and Game at Bethel for commercial salmon fishermen in the Kuskokwim Area.

**District 4, Quinhagak**

**District 4, Quinhagak, will open to commercial salmon fishing for 12 hours from 9:00 a.m. until 9:00 p.m. on Saturday, July 7, 2012 and for 12 hours from 9:00 a.m. until 9:00 p.m. on Monday, July 9, 2012.**

Preliminary harvest reports from the July 4 opening indicate a harvest of 1,907 Chinook; 12,083 sockeye; and 8,975 chum salmon from 210 permits. The Chinook salmon harvest was above average and the catch rate was below average. Sockeye and chum salmon harvests were above average and catch rates were below average. The local processor anticipates adequate processing capacity for these upcoming commercial periods. Fishermen should maintain contact with the buyer to ensure there is adequate processing capacity for their catch.

In District 4 subsistence salmon fishing will be closed 8 hours before, during, and 4 hours after each commercial fishing period.

**District 5, Goodnews Bay**

**District 5, Goodnews Bay, will open to commercial salmon fishing for 12 hours from 9:00 a.m. until 9:00 p.m. on Saturday, July 7, 2012 and for 12 hours from 9:00 a.m. until 9:00 p.m. on Monday, July 9, 2012.**

Preliminary harvest reports from the July 4 opening indicate a harvest of 172 Chinook; 4,325 sockeye; and 2,348 chum salmon from 24 permits. The harvest and harvest rate of Chinook salmon were below average. Harvests and harvest rates of sockeye and chum were above

average. The local processor anticipates adequate processing capacity for this upcoming commercial period. Fishermen should maintain contact with the buyer to ensure there is adequate processing capacity for their catch.

In District 5 subsistence salmon fishing will be closed 8 hours before, during, and 4 hours after each commercial fishing period.

Fishermen are reminded that they may retain any portion of their catch for personal or subsistence use. Fish retained for personal or subsistence use from a commercial fishery must be reported and recorded in the space provided on an ADF&G fish ticket. Fishermen are also reminded that gillnet gear may not be operated in a manner that obstructs more than one half the width of any waterway. In the intertidal zone this restriction applies at all tide stages. Additionally, gear is restricted to 6-inch or smaller mesh size and 50 fathoms in length in a single shackle.

The Department will be closely monitoring commercial fishing periods to assess fishery performance and anticipates announcing additional commercial fishing periods as warranted. Further announcements will be made from the Bethel Fish and Game office, on the state web site (<http://www.adfg.alaska.gov/index.cfm?adfg=cfnews.main>), and local radio stations. News releases will be faxed to area villages and local fish processing companies.

Commercial fishermen are encouraged to consult Fish and Game regulations prior to beginning commercial fishing operations.

For additional information or questions regarding Districts 4 and 5 and Kuskokwim Area fisheries, contact the Alaska Department of Fish and Game office in the Bethel at 543-2433 or toll free at 855-933-2433.
